5 years for any defects,
excluding normal wear and tear.

Price: \$1,399

Designed to follow your body's movements, Thatsit balans is the perfect complement for an active mind and a strong posture.

When leaning forward to actively work, the pelvis tilts forward keeping the spine in its upright, dynamic posture and the body balanced. This subtle activity strengthens core muscles, prevents back and shoulder tension, and enables deep breathing.

Sit back to allow the backrest to offer support and invite pleasant stretching during your long working hours.
